

Audatex *Estimating*™

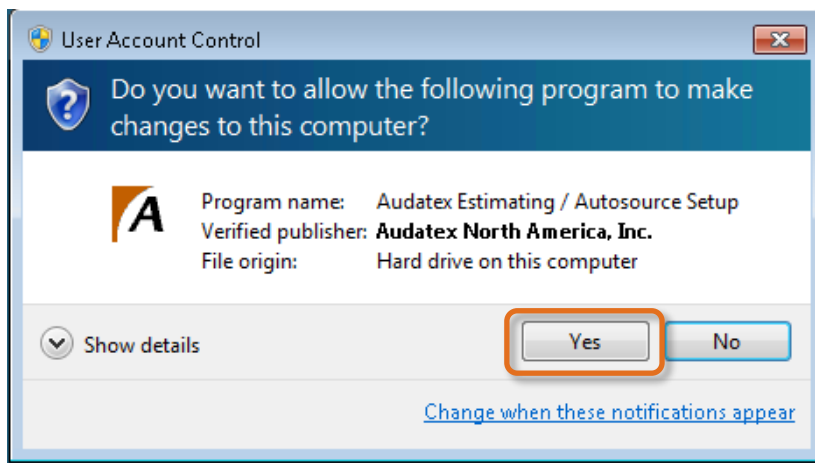

How to Update Audatex Estimating using AudaUpdate for Installed Standalone Users

Note: Go to MySupportGarage.com to view the video of these instructions.

When launching Audatex Estimating after a new version of Audatex Estimating has been retrieved by AudaUpdate, users will see the following screen:

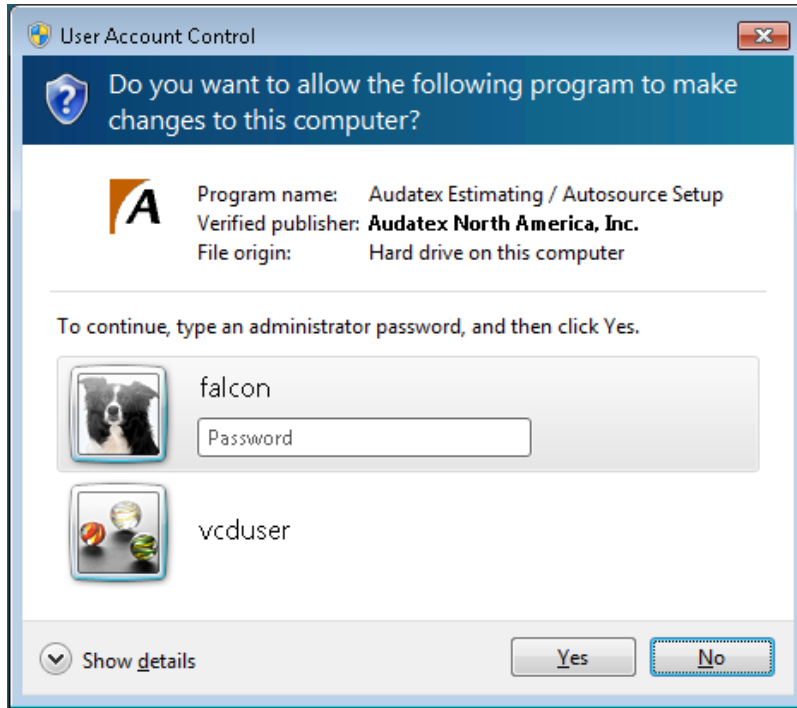

1. Click the **Install Now** button on the above message.
2. As noted in the message, there may be one of two methods of installation depending on how Windows is configured:
 - 1) When Windows asks to confirm the installation, click the **Yes** button and move to **Step 3**.

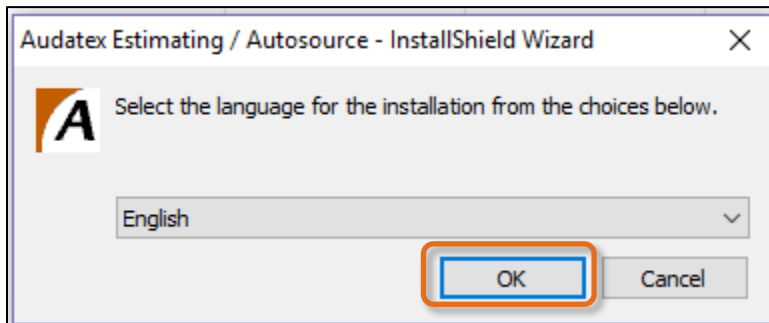

~OR~

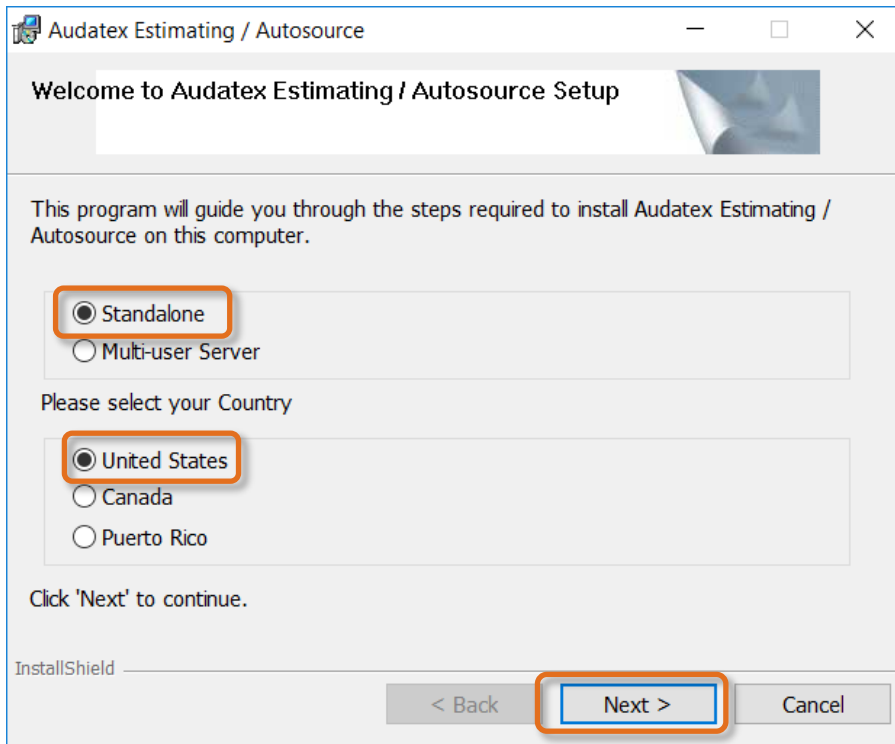

- 2) When Windows requires a User ID/Password for Administrative privileges, contact the internal IT department.

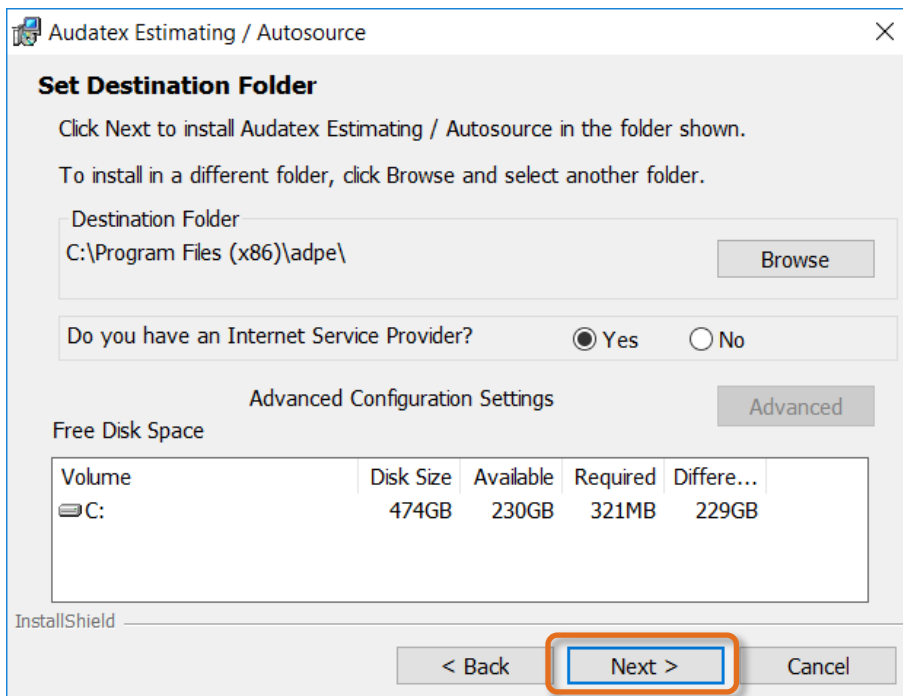

3. Select the language from the drop-down list and click the **OK** button.

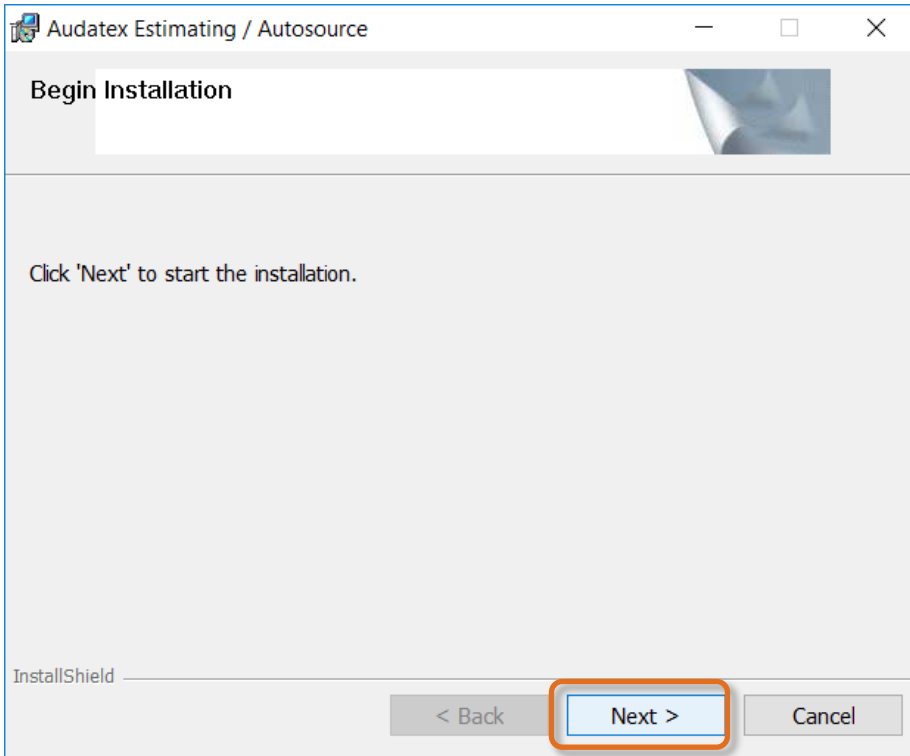

4. Click the **Standalone** radio button and select the **country**.
5. Click the **Next** button.

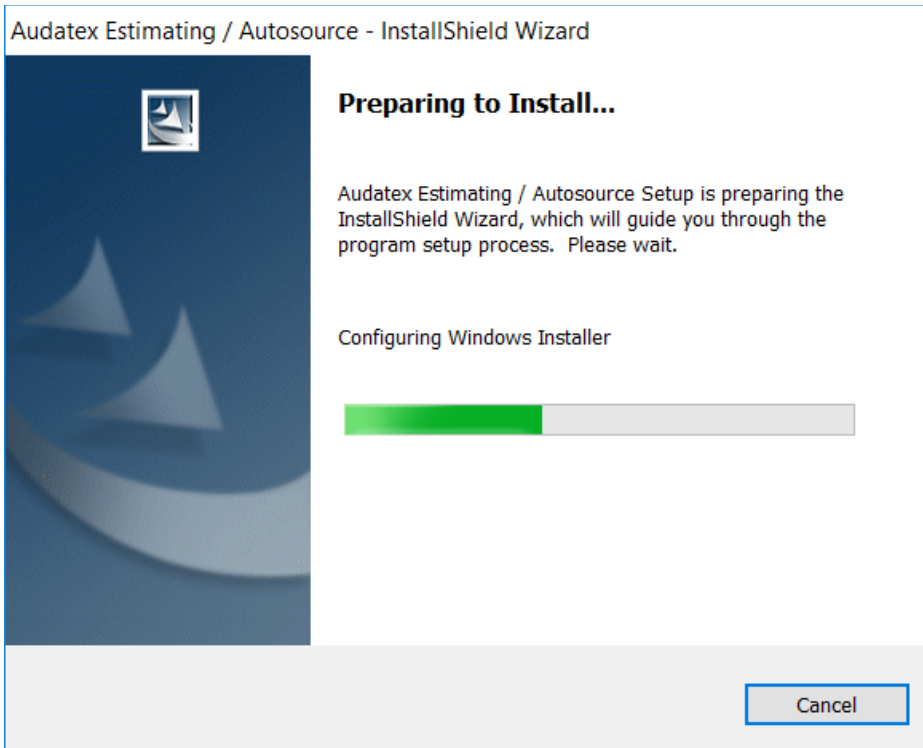

6. Click the **Next** button.

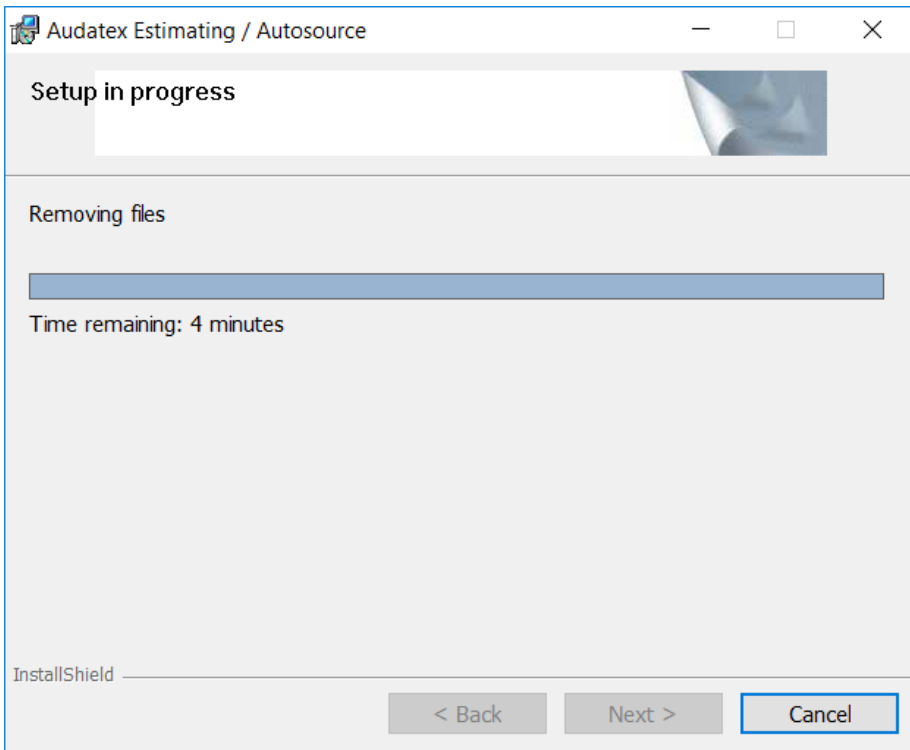

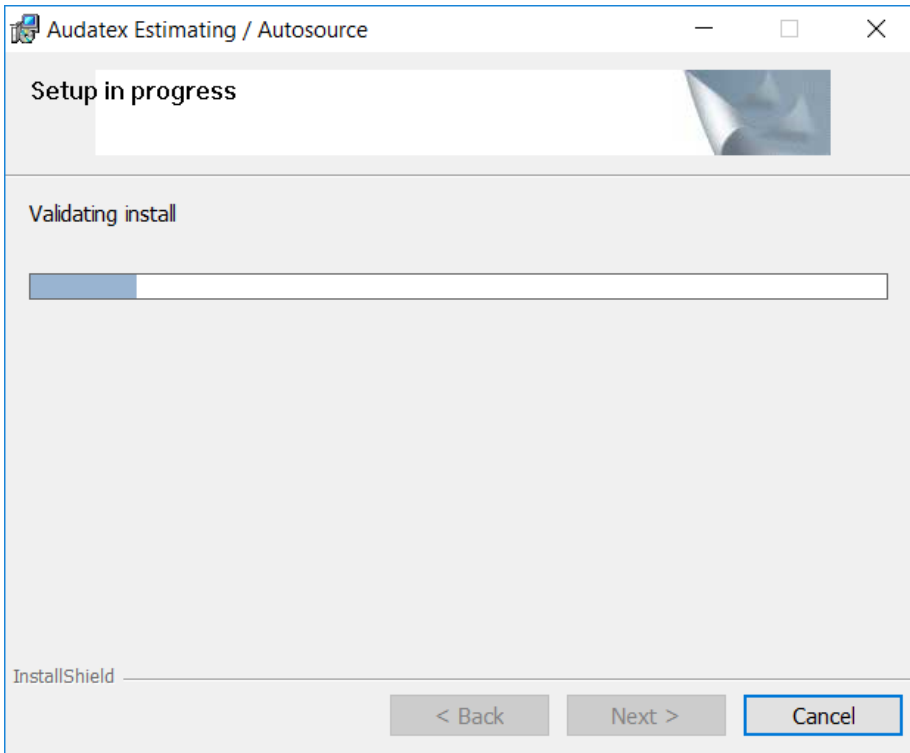

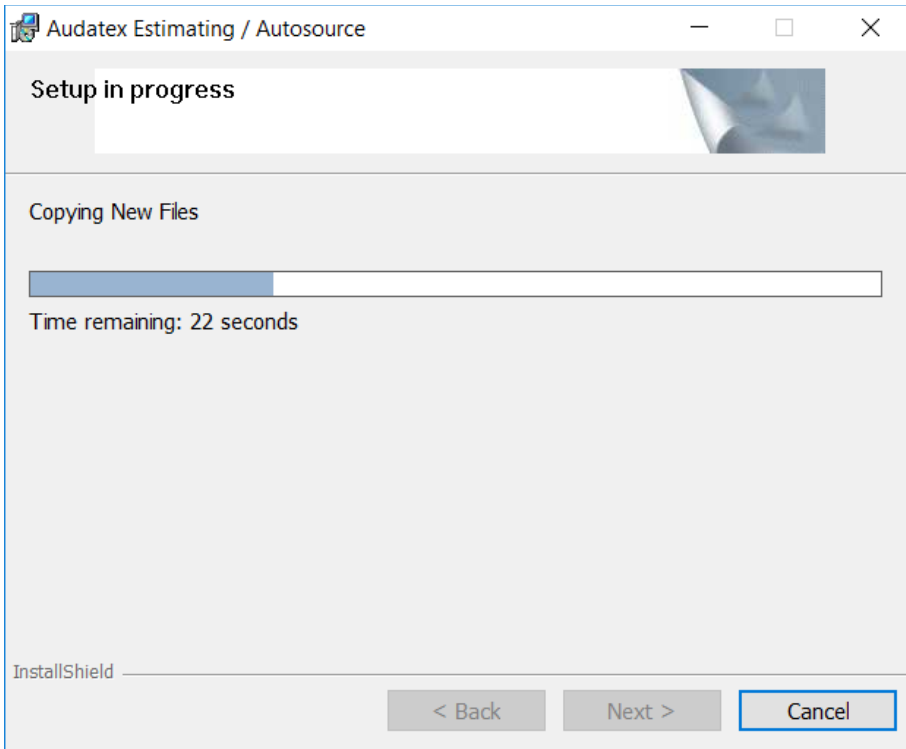

7. Click the **Next** button to start the installation process.

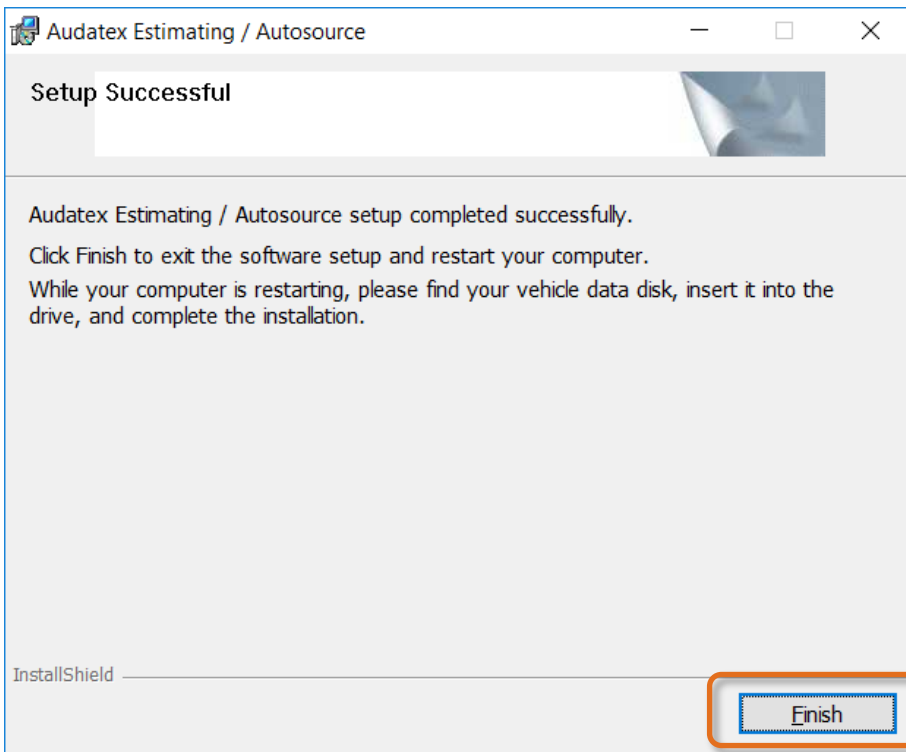

8. The install process will go through a series of screens as shown below.

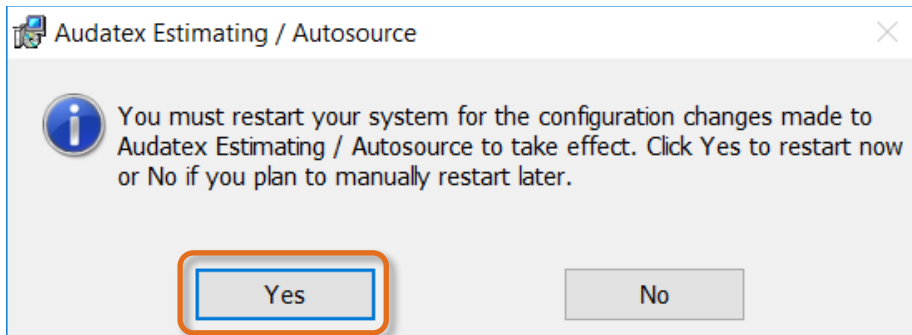

9. Click the **Finish** button.

10. Click the **Yes** button to restart the computer.
