

## How to Update Audatex Estimating using AudaUpdate for Installed Standalone Users

**Note**: Go to MySupportGarage.com to view the video of these instructions.

When launching Audatex Estimating after a new version of Audatex Estimating has been retrieved by AudaUpdate, users will see the following screen:

- 1. Click the **Install Now** button on the above message.
- 2. As noted in the message, there may be one of two methods of installation depending on how Windows is configured:
  - 1) When Windows asks to confirm the installation, click the **Yes** button and move to **Step 3**.

😵 User Account Control		
Do you want to allow the following program to make changes to this computer?		
<ul> <li>Program name: Audatex Estimating / Autosource Setup</li> <li>Verified publisher: Audatex North America, Inc.</li> <li>File origin: Hard drive on this computer</li> </ul>		
Show details Yes No Change when these notifications appear		

~OR~

2) When Windows requires a User ID/Password for Administrative privileges, contact the internal IT department.
